Welcome to our guide!

Here are 4 ideas you can do today to build your space outside.

Project

DIY Planter Box:

Materials: Wood planks, screws, weed barrier fabric, potting soil, plants.

Instructions: Build a simple planter box using wood planks, line it with weed barrier fabric, fill it with potting soil, and plant your favorite flowers or herbs.

Gravel Pathway:

Materials: Gravel, landscape fabric, edging stones, shovel, rake.

Instructions: Clear the area for your pathway, lay down landscape fabric to prevent weed growth, edge the pathway with stones, spread gravel evenly, and compact it with a rake.

Hanging Basket Garden:

Materials: Hanging baskets, potting soil, plants, water, fertilizer.

Instructions: Fill hanging baskets with potting soil, plant flowers or herbs, water regularly, and fertilize as needed for a vibrant and colorful hanging garden.

Bird Feeder:

Materials: Wooden plank, screws, wood glue, birdseed, eye screw.

Instructions: Cut the plank into desired shapes, assemble using screws and wood glue, attach an eye screw for hanging, fill with birdseed, and hang in a suitable location.

The great outdoors is waiting for you!
